EPA is committed to working closely with response agencies and state and local officials to ensure the safety of citizens, respond to concerns and to evaluate impact to water contaminated by the Gold King Mine Release. EPA is sharing information as quickly as possible with the public as experts work to evaluate any effects the spill may have on drinking water, public health, agriculture, fish and wildlife.

**Subject:** Mine Spill worker question

Hello,  
Can you tell me if the Workers involve in the Spill from the Mine a few days ago, those workers operating the equipment such as a backhoe, were they really Actually employees of the EPA VS employees of a Sub-contractor, that is NOT US Gov Employees.

I understand they may have been "supervised" by the EPA.

Please reply by email or call....

Thank You  
Roger Anderson
